

## **SECTION 1: Identification**

1.1 Product identifier

Product name Lion Grill Cleaner

1.2 Other means of identification

Product code 018

1.3 Recommended use of the chemical and restrictions on use

To be used as a cleaning agent.

1.4 Supplier's details

Name American Energy Restaurant Equipment, Inc.

Address 7538 Fullerton Court

Springfield, VA 22153

USA

Telephone 703-644-6666

1.5 Emergency phone number(s)

800-255-3924 - Chemtel

## **SECTION 2: Hazard identification**

## 2.1 Classification of the substance or mixture

GHS classification in accordance with: (US) OSHA (29 CFR 1910.1200)

- Skin corrosion/irritation, Cat. 1A
- Eye damage/irritation, Cat. 1
- Corrosive to metals, Cat. 1

## 2.2 GHS label elements, including precautionary statements

**Pictogram** 

Signal word Danger

Hazard statement(s)

H290 May be corrosive to metals

H314 Causes severe skin burns and eye damage

**Precautionary statement(s)** 

P234 Keep only in original container.
P260 Do not breathe mist/vapors/spray.

P264 Wash hands and exposed skin thoroughly after handling.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P301+P330+P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse

skin with water/shower.

P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses if present and easy to do. Continue rinsing.

P310 Immediately call a POISON CENTER/doctor.
P363 Wash contaminated clothing before reuse.
P390 Absorb spillage to prevent material-damage.

P405 Store locked up.

P406 Store in a corrosive resistant container with a resistant inner liner.

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

#### 2.3 Other hazards which do not result in classification

Exposure to this product may aggravate pre-existing eye, skin, or respiratory conditions.

# **SECTION 3: Composition/information on ingredients**

#### 3.1 Substances

Not applicable.

## 3.2 Mixtures

## **Hazardous Components**

Component	Concentration
Potassium Hydroxide (CAS no.: 1310-58-3)	5 % (weight)
Tetrapotassium pyrophosphate (CAS no.: 7320-34-5)	<1 % (weight)

## **SECTION 4: First-aid measures**

## 4.1 Description of necessary first-aid measures

General advice Consult a physician. Show this safety data sheet to the doctor in attendance.

If breathed in, move person into fresh air. If not breathing, give artificial

respiration. Call a poison center or doctor if symptoms/effects persist.

In case of skin contact

Take off immediately all contaminated clothing. Rinse skin with water/shower

for at least 15 minutes. Call a poison center or doctor if irritation develops or

persists. Wash contaminated clothing before reuse.

In case of eye contact Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if

present and easy to do. Continue rinsing. Immediately call a poison center or

doctor.

If swallowed Rinse mouth with water. Get immediate medical attention. If vomiting occurs

naturally, have victim lean forward to reduce the risk of aspiration. Do NOT

induce vomiting unless directed to do so by medical personnel.

Personal protective equipment for first-aid responders

Refer to Section 8 for specific personal protective equipment

recommendations. Avoid contact with skin and eyes. Do not ingest. Do not

breathe vapors or spray mist.

## 4.2 Most important symptoms/effects, acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

If inhaled May cause respiratory irritation. Signs/symptoms may include cough,

sneezing, nasal discharge, headache, hoarseness, nose and throat pain. Severe tissue damage may occur due to the corrosive nature of the product.

In case of skin contact Causes severe skin burns. Signs/symptoms may include localized redness,

swelling, itching, intense pain, blistering, ulceration, and tissue destruction.

In case of eye contact

Causes serious eye damage. Signs/symptoms may include cloudy

appearance of the cornea, chemical burns, severe pain, tearing, ulcerations,

significantly impaired vision or complete loss of vision.

If swallowed May cause gastrointestinal irritation and other adverse effects.

Signs/symptoms may include abdominal pain, stomach upset, nausea,

vomiting and diarrhea. Severe tissue damage may occur due to the corrosive

nature of the product.

### 4.3 Indication of immediate medical attention and special treatment needed, if necessary

Treat symptomatically and supportively.

## **SECTION 5: Fire-fighting measures**

## 5.1 Suitable extinguishing media

Use extinguishing media appropriate for surrounding fire.

## 5.2 Specific hazards arising from the chemical

Product is not classified as flammable or combustible in accordance with US OSHA (29 CFR 1910.1200).

#### 5.3 Special protective actions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

## **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

Avoid breathing gas, mist, vapors, spray. Ensure adequate ventilation. Evacuate personnel to safe areas. For personal protection see section 8.

### 6.2 Environmental precautions

Do not release into the environment. Stop spill/release if it can be done safely.

### 6.3 Methods and materials for containment and cleaning up

Soak up with inert absorbent material. Keep in suitable, closed containers for disposal. If necessary, consider neutralizing the residue with a suitable neutralizing agent.

#### Reference to other sections

For disposal see section 13.

## **SECTION 7: Handling and storage**

## 7.1 Precautions for safe handling

Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Do not eat, drink or smoke when using this product. Wash hands with soap and water after handling. For personal protection see section 8. For precautions see section 2.

## 7.2 Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store in a corrosive resistant container with a resistant inner liner. Keep away from incompatible materials. Keep from freezing.

## Specific end use(s)

Apart from the uses mentioned in section 1 no other specific uses are stipulated.

## **SECTION 8: Exposure controls/personal protection**

## 8.1 Control parameters

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Potassium hydroxide (CAS no.: 1310-58-3)

TLV-C: 2 mg/m³ (ACGIH) REL-C: 2 mg/m³ (NIOSH) PEL-C: 2 mg/m³ (Cal/OSHA)

### 8.2 Appropriate engineering controls

Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits. Eyewash stations and showers should be available in areas where this material is used and stored.

### 8.3 Individual protection measures, such as personal protective equipment (PPE)

## **Pictograms**

## Eye/face protection

Tightly fitting safety goggles. If splash hazard, wear faceshield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

#### Skin protection

Wear protective gloves. Consult manufacturer specifications for further information.

## **Body protection**

Wear protective clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

## Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). If the respirator is the sole means of protection, use a full-face supplied air respirator.

## Thermal hazards

No data available.

## **Environmental exposure controls**

Do not release into the environment.

# **SECTION 9: Physical and chemical properties**

## Information on basic physical and chemical properties

Appearance/form (physical state, color, etc.)

Orange liquid.

Odor No odor.

Odor threshold

No data available.

No data available.

Melting point/freezing point

No data available.

Initial boiling point and boiling range

No data available.

Flash point

Evaporation rate

Flammability (solid, gas)

Upper/lower flammability limits

No data available.

Upper/lower explosive limits

Vapor pressure

Vapor density

Relative density

No data available.

Specific gravity

Solubility(ies)

Partition coefficient: n-octanol/water

Auto-ignition temperature

No data available.

No data available.

No data available.

Decomposition temperature

No data available.

No data available.

Viscosity

No data available.

No data available.

Explosive properties

Oxidizing properties

Not explosive.

Not oxidizing.

## Other safety information

No data available.

# **SECTION 10: Stability and reactivity**

## 10.1 Reactivity

Stable under normal use conditions.

## 10.2 Chemical stability

Stable under normal storage conditions.

## 10.3 Possibility of hazardous reactions

Product can react violently with acids.

Product can react with ammonia salts or solutions to produce hazardous ammonia gas.

Product can react violently with alkali metals.

Contact with metals could evolve flammable hydrogen gas.

### 10.4 Conditions to avoid

Avoid contact with incompatible materials.

## 10.5 Incompatible materials

Acids, metals, ammonia salts/solutions, halogenated hydrocarbons.

## 10.6 Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## **SECTION 11: Toxicological information**

## Information on toxicological effects

Likely Routes of Exposure: Eye contact. Skin contact. Inhalation.

If inhaled May cause respiratory irritation. Signs/symptoms may include cough,

sneezing, nasal discharge, headache, hoarseness, nose and throat pain. Severe tissue damage may occur due to the corrosive nature of the product.

In case of skin contact

Causes severe skin burns. Signs/symptoms may include localized redness,

swelling, itching, intense pain, blistering, ulceration, and tissue destruction.

In case of eye contact Causes serious eye damage. Signs/symptoms may include cloudy

appearance of the cornea, chemical burns, severe pain, tearing, ulcerations,

significantly impaired vision or complete loss of vision.

If swallowed May cause gastrointestinal irritation and other adverse effects.

Signs/symptoms may include abdominal pain, stomach upset, nausea,

vomiting and diarrhea. Severe tissue damage may occur due to the corrosive

nature of the product.

### Acute toxicity

Based on available data, classification criteria are not met.

Components:

Potassium hydroxide (CAS no.: 1310-58-3)

LD50 Oral - Rat - 333 mg/kg

## Skin corrosion/irritation

Causes severe skin burns.

## Serious eye damage/irritation

Causes serious eye damage.

#### Respiratory or skin sensitization

Based on available data, classification criteria are not met.

#### Germ cell mutagenicity

No data available.

## Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by IARC.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

## Reproductive toxicity

No data available.

## STOT-single exposure

No data available.

### STOT-repeated exposure

No data available.

## **Aspiration hazard**

Based on available data, classification criteria are not met.

# **SECTION 12: Ecological information**

### **Toxicity**

No data available on product.

## Persistence and degradability

No data available on product.

### Bioaccumulative potential

No data available on product.

## Mobility in soil

No data available.

#### Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

#### Other adverse effects

No data available.

## **SECTION 13: Disposal considerations**

## Disposal of the product

Disposal should be in accordance with applicable Federal, State and local laws and regulations. Local regulations may be more stringent than State or Federal requirements.

## Disposal of contaminated packaging

Dispose of as unused product.

# **SECTION 14: Transport information**

DOT (US)

UN Number: 1814

Class: 8

Packing Group: II

Proper Shipping Name: Potassium hydroxide solution

IMDG

UN Number: 1814

Class: 8

Packing Group: II

Proper Shipping Name: Potassium hydroxide solution

**IATA** 

UN Number: 1814

Packing Group: II

Proper Shipping Name: Potassium hydroxide solution

## **SECTION 15: Regulatory information**

## 15.1 Safety, health and environmental regulations specific for the product in question

## **SARA 302 Components**

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

### SARA 311/312 Hazards

Acute health hazard.

## **SARA 313 Components**

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

## **NFPA** Rating

## **SECTION 16: Other information**

## 16.1 Further information/disclaimer

Date of issue: March 25, 2024.

DISCLAIMER: The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigation to determine the suitability of information for their particular purposes. All materials may present unknown hazards and should be used with caution. In no event shall we be held liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, whatsoever arising, even if we have been advised of the possibility of such damages.
